Critical ultrasound Webinar

The COVID-19 outbreak is rapidly evolving and spreading in an unprecedented way in China and other countries in the world. It's crucial for health professionals to gain knowledge about the pathogen and prepare adequate clinical responses to the threat.

Mindray, in collaboration with CCUSG (Chinese Critical Ultrasound Study Group), has put together an up-to-date and most valuable front-line experience of critical ultrasound application in novel coronavirus pneumonia and wishes to share to all in this webinar. We are fortunate to have invited experts who are fighting at the frontline in Wuhan, China, to share their experience and expertise based on thousands of cases.
